EGG PROCESSING MACHINES

MX-0 tunnel egg washer

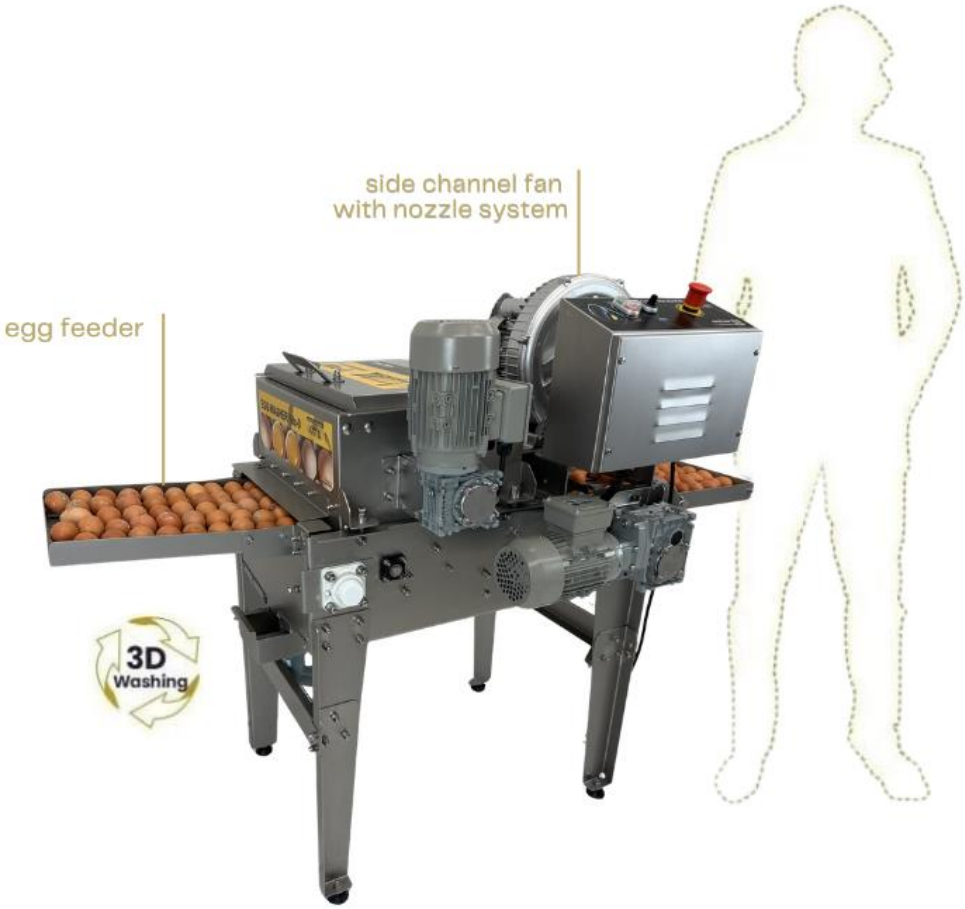

Capacity:	**3000 eggs/hour**
Replaces:	**8 persons**

Power supply:	3 kW 230V 1/N/PE 50/60 Hz, 3,35kW 110 V 1/N/PE 50/60 Hz
Compressed air:	n/a
Water:	water from client's installation
Drain:	required

Dimensions:	67x32x48 in
Minimal workspace:	106x71 in
Weight:	386 lbs
Operated by:	1 person
Compatibility:	VEL-30

Description

The MX-0 washes the eggs in a 3D fashion thanks to the use of specially designed rotating brushes which clean all of the eggs' surfaces. This allows for an exceptional level of cleanliness. First, the eggs are fed into the machine There, thanks to the use of specially profiled rollers, the eggs are rotated along their axis, while specially designed brushes with warm water(20-45) °C wash the eggs at every angle, which results in a 3D washing effect. After washing, the eggs are transported into a drying section, where they are dried by a stream of warm air. The machine is made out of stainless steel EN 1.4301 (AISI 304).
